

Meeting Notes for 2/3/06

Present: Charles, John, Alicia, Lindsey, Aaron, Michael, Kristian, Leviticus, Robin, Dr. Cleaveland

Elections: Elections were postponed until next meeting when we have a more likely list of candidates. Robin is already our new secretary. We will most likely hold elections next mtg. (Feb. 17th) and either elect or just force someone to do it.

Hiking With Your Honey: We went over the preparations for the Valentine's hike. Decided on @ 1 – 6 PM.

Leviticus and Robin offered to cook for all those signing up. We will reimburse them and decide on exact numbers and exact food by Thurs. the 16th (the sign up dead line). Aaron offered to put up flyers and get the word out.

Kristian will be providing the camping area and bonfire area, of which GTU said they would help reimburse any expenses incurred.

We said we would lay out the exact schedule for everyone next week.

We decided on BYOB for the evening if you want to be involved.

Aaron is working on prizes.

We sort of decided trails, but not really.

LOGO: We said we will choose a logo by the next meeting. We are down to Atlas pig (which we have no actual design for), GTU in a Robinson type projection (no actual design for), and the Geography logo with the pig/state of Ark/satellite.

Once we get this, we will put it on shirts for sale (thanks to Robin) – which we will pick the background color for next mtg.

Then we can put the logo on beer glasses (someone needs to look into this) and maybe on other things.

Ice Skating: We decided on the 1:45 time (we have to block out a time for the Jones Center) for Sat. April 8th. So start making your plans.

Garage Sale: We are taking donations and saving them in Geog. Grad. Students office (Ozark 105). We are going to get a flyer out after next mtg. letting all faculty and staff know what and where to do to get us donations.

We decided to look into getting the old maps around Ozark framed or something to make for sale. No one knows who to talk to about this.

General Fundraising: We are still talking about doing Springfest. We could sell maps and such there. Aaron had the wonderful idea of doing a cheap and easy satellite image of campus and framing it, then selling it to suckers everywhere. We could also put the campus image on T-shirts or beer mugs.

Spring Banquet: We are going to have a few more awards this year. We want to do a volunteer service award, Cart I and Cart II best map awards (with map work being displayed @ banquet), outstanding undergrad, Newcomer Award, etc.
