Corrigendum

We regret that Fig. 1 of Havens et al. (2011) was published with a post-acceptance error such that one of the letters denoting significant differences among least square means was incorrect. The corrected figure is published below.

In addition, on p. 1318, column 2, lines 5–6, ‘Punta Prieta, Baja California’ is corrected to ‘San Quintin, Baja California’.

Reference

Fig. 1 Offspring development time in days for two allopatric populations of Drosophila mojavensis reared on two different cactus substrates. Different letters (a–i) denote significant differences (α = 0.05) among least square means for each generation analysed separately.
